

Stocksmoor - wrought iron table lamp

Product Code: SLSTOCKS280

A contemporary, retro-industrial lamp featuring a simple, protective cage to encase the 'test-tube' lightbulb. This complementary piece to our Stocksmoor pendant light range contains solid steel rods and exposed button head fittings. The wrought iron Stocksmoor table lamp is designed and made by skilled blacksmiths in our rural forge in Yorkshire. This table lamp is available in light burnished steel with contrasting brass fittings and features a silver, braided cable complete with an inline switch. The lamp is coated with a clear protective lacquer to prevent any blemishes or abrasions to the finish. The overall height of the Stocksmoor table lamp is 280mm and its base has an overall diameter of 150mm. We recommend the FLO E27 lightbulb for this lamp. The lamp is compatible with an LED bulb. Please note that bulbs are sold separately.
