

## The Stocksmoor mini wall light

Product Code: WLSTOCKSMOORMINI

A contemporary, retro-industrial light featuring a simple, protective cage to encase the 'test-tube' lightbulb. This complementary piece to our Stocksmoor pendant light range contains solid steel rods and exposed button head fittings. The solid steel backplate of the Stocksmoor mini wall light is heavily textured in the forge to give the piece a great reflective surface and some character when illuminated. This fitting is shown in light burnished steel with nickel fittings but can be selected in other variations. The overall height of the Stocksmoor mini wall light is 270mm tall, 90mm wide and 135mm max from the wall surface. We recommend the STYX E14 lightbulb for this lamp. The lamp is compatible with an LED bulb. Please note that bulbs are sold
