

Wilshaw Luna wall light

Product Code: WLWILSHAWLUNA

The Wilshaw Luna wall light is a contemporary evolution of a classic. The new textured back plate replaces our previous herringbone fullered detail as a simpler alternative and the wall light is made specific to a G125 bulb supplied with the light. The Luna bulb from Well-Lit features a spiral LED filament and the large glass globe sits in a steel ring, creating a floating orb of light. This forged steel wall light is perfect for a vibrant lounge alcove, aside a chimney breast or as a feature in a hallway perhaps. Available in light burnished steel or a contrasting Natural black with highlighted details this wall light measures 300mm x 120mm and stands off the wall by 200mm. Supplied with nickel fittings as standard and your choice of cable colour.

£225.00
