

Hartcliff tiny 5-light - wrought iron pendant light

Product Code: PLHART5ARM440

The 'tiny' Hartcliff chandeliers may be small but remain one of our most popular designs as they fit in such an array of homes. From country cottage to modern detached homes with contemporary décor, this handmade wrought iron pendant light punches well above its size. Starting with the original Hartcliff 5-light design we chopped out almost 300mm from the overall height to ensure it fitted into the typically reduced ceiling height of a cottage or modern home. At just 340mm overall this allows around 2metres clearance in most homes. Perfect for the living room or over a dining table the mini chandelier can be dressed up with fabric lampshades for a unique style or kept traditional in black with ivory tubes. The E14 fitting suits our IRIS led bulb although other styles are available. This delightful chandelier is available to order now, handmade just for you by contemporary blacksmiths. Larger sizes are available.

£395.00
