

Mitre tiny - wrought iron table lamp

Product Code: SLMITRETL360

A distinctive table lamp inspired by the shape of the bishop's Mitre hat. The Mitre table lamp is hand-forged by skilled blacksmiths in our rural Yorkshire forge, and its stunning profile is an authentic Nigel Tyas classic. Its distinctive shape is created by hand forged legs being riveted to a solid round base and brought together at the top with decorative curls, tied with a ribbon of steel. The Mitre table lamp is available in two finishes of either natural black or light burnished steel to suit your preferences, and is coated with a protective clear lacquer to prevent any blemishes or abrasions to the finish. This tiny table lamp is also available in a larger size. The overall height of the Mitre table lamp to the top of the bayonet is 360mm, with an overall base diameter of 150mm. This height does not include the shade. The Mitre table lamp is compatible with our round shades that are available in a range of colours to suit you. We recommend a shade with a 255mm base diameter, and a LED BC22 bulb with a maximum wattage of 10w. Please note that the lamp shades and bulbs are sold separately.
