

Oxspring - radial - wrought iron table lamp

Product Code: SLOXSPRINGRADIALTL450

Every home office or craft table deserves a beautifully crafted task light. The handmade Oxspring wrought iron desk lamp is designed and made for the job. Perfectly sized, with beautiful radial fullered detail, this collaborative piece features your choice of handmade ceramic or porcelain shade, made exclusively for us by local ceramic artist, Sarah Jones-Morris. The conical shade supports a small bayonet cap fitting and focuses the light carefully with the adjustable angle neck. A fabric cable with inline switch completes the look with British made brass fittings to contrast the forged steel. Price shown includes shade - bulb sold separately. An alternative with punched base details is also available.

£225.00

Availability - Dispatched within 3 weeks
