

Vertical curtain pole bracket - to fit 12mm pole

Product Code: CP12BKTVERT

Handmade wrought iron vertical curtain pole bracket "forged to fit perfectly with our 12mm cottage poles. Each one is crafted by an individual blacksmith from a single piece of steel. Featuring a small grub screw to grip the pole in place and 2 fittings for a secure wall mounting - a straight pole will normally have a vertical bracket at each end and if required, a horizontal bracket in the centre for additional support. As with most of our components these are sold as singles so you can customise your order for your exact requirements. If you require a specific type of bracket, see the full range or call us for a bespoke quote.
