

Whitby - wrought iron table lamp

Product Code: SLWHITBY380

A uniquely shaped table lamp inspired by the iconic whale bone sculpture which dominates Whitby's north bay. The Whitby table lamp provides a distinctive shape and hand-forged detail that was designed and made by skilled blacksmiths in our rural Yorkshire forge. The Whitby table lamp is available in two finishes of either natural black waxed or light burnished steel, and is coated with a protective clear lacquer to prevent any blemishes or abrasions to the finish. The overall height of the Whitby table lamp to the top of the bayonet is 380mm, with an overall base diameter of 260mm x 120mm. This height does not include the shade. The Whitby table lamp is compatible with our 14" rectangular shades that come in a wide range of colours to suit you. We recommend a shade with measurements of 360w x 200d x 270h, and a BC22 bulb. This lamp is compatible with an LED bulb. Please note that the lamp shades and bulbs are sold separately.
