

Wooldale - wrought iron table lamp

Product Code: SLWOOLDALE600

This elegant handmade 'swan neck' table lamp works best with a glass shade to provide a unique piece, designed and made by skilled blacksmiths in our rural forge in Suffolk. The solid steel forged base provides a sturdy footprint and the gently tapered neck carries the hammered detail allowing a gentle reflection of light in the steel. Complimented by one of our handblown lead crystal glass shades, the overall shape is evocative of a bluebell or wild garlic flower and brings a beautiful natural form into the room. Partnered with the matching floor lamp these distinctive products make fantastic reading lamps or task lighting without the need for a typical spotlight or desk lamp. Fitted with a BC lampholder and available in our signature finish with highlighted details, we recommend using a B11A led bulb available from us also. Shade sold separately. Overall height for the lamp is 600mm
