- bulb fitting - BC (bulb sold separately)
- for use with LED bulbs only
- supplied with one metre of silk braided cable in choice of colours
- cable grip fittings in a choice of finishes
- natural black or light burnished steel surface finish

## Maythorne - wrought iron pendant light

Product Code: PLMAYTHORNESGL

The Maythorne single pendant emulates it's larger sibling in the range with a trio of twisted tendrils, forged around the lamp, creating a unique and eye catching pendant light. Affixed to the hand made ceiling rose with a length of braided fabric cable this piece can work just as well on it's own as it does in groups of 3 or more over a kitchen island or dining table area. Exposing the twisted filament 'RHIA' led bulb the product stands out in a sea of regular lights and as each one is handmade there will always be subtle variances as the tendrils are formed by the blacksmith. Supplied with a British made BC22 (bayonet) fitting.
