

Kelham - wrought iron wall light

Product Code: WLKELHAM

A retro-industrial wall light with a strong work ethic. Designed with a simple and clean aesthetic, it has straight lines, open LED bulb and an aged, mid-grey textured metalwork finish. The design is based around a steel girder, famously produced in the rolling mills of Kelham Island in the steel city of Sheffield not far from our forge. Supplied with a British made E27 nickel plated lampholder, this wall light can be positioned horizontally or vertically (we prefer upright) and supports a variety of bulbs although we highly recommend our RHIA or LEO led items (sold separately). These wall lights look great framing a mirror in a living room or dressing room area, or as accent lighting around a dining space.
