

Flockton - wrought iron wall light

Product Code: WLFLOCKTON

Our simplest design of wall light with a square, hand-forged back-plate, straight arm and a repositionable light fitting. Sometimes it's best to just keep things to a minimum. The Flockton makes a great addition as bedside reading lights, keeping bedside tables clutter free. A plug in version is available if wiring to the mains isn't possible. Each wall light can be customised with your choice of finish on both the backplate and lampholder - we prefer light burnished steel and brass but Natural black and Antique bronze is the classic choice. Available with your choice of glass shades (sold separately), again this product really suits a variety of shades but we recommend the opalescent white glass or prismatic snowdrop shade for this product.
