

Huthwaite - wrought iron table lamp

Product Code: SLHUTHWAITETL330

A contemporary wrought iron feature lamp with decorative lines and wave finials. Handmade in the forge, this exclusive creation was designed around the cylinder of distressed mirror glass and is as engaging when switched off as it is when illuminated thanks to the distinctive surface pattern of each piece. This lamp is lightly shot blasted and lacquered creating a finish unlike our standard ironwork, giving a unique look to the 'rocket ship' design. This piece will add a striking dimension to your living space. Equipped with an E27 fitting, we think it looks best with one of our 'Flo' T32 test tube LED bulbs but it will accommodate a variety of screw thread bulbs. The overall height of the Huthwaite table lamp is 330mm, with an overall base diameter of 240mm.

£340.00
